

## SEWER CLEANING NOTICE

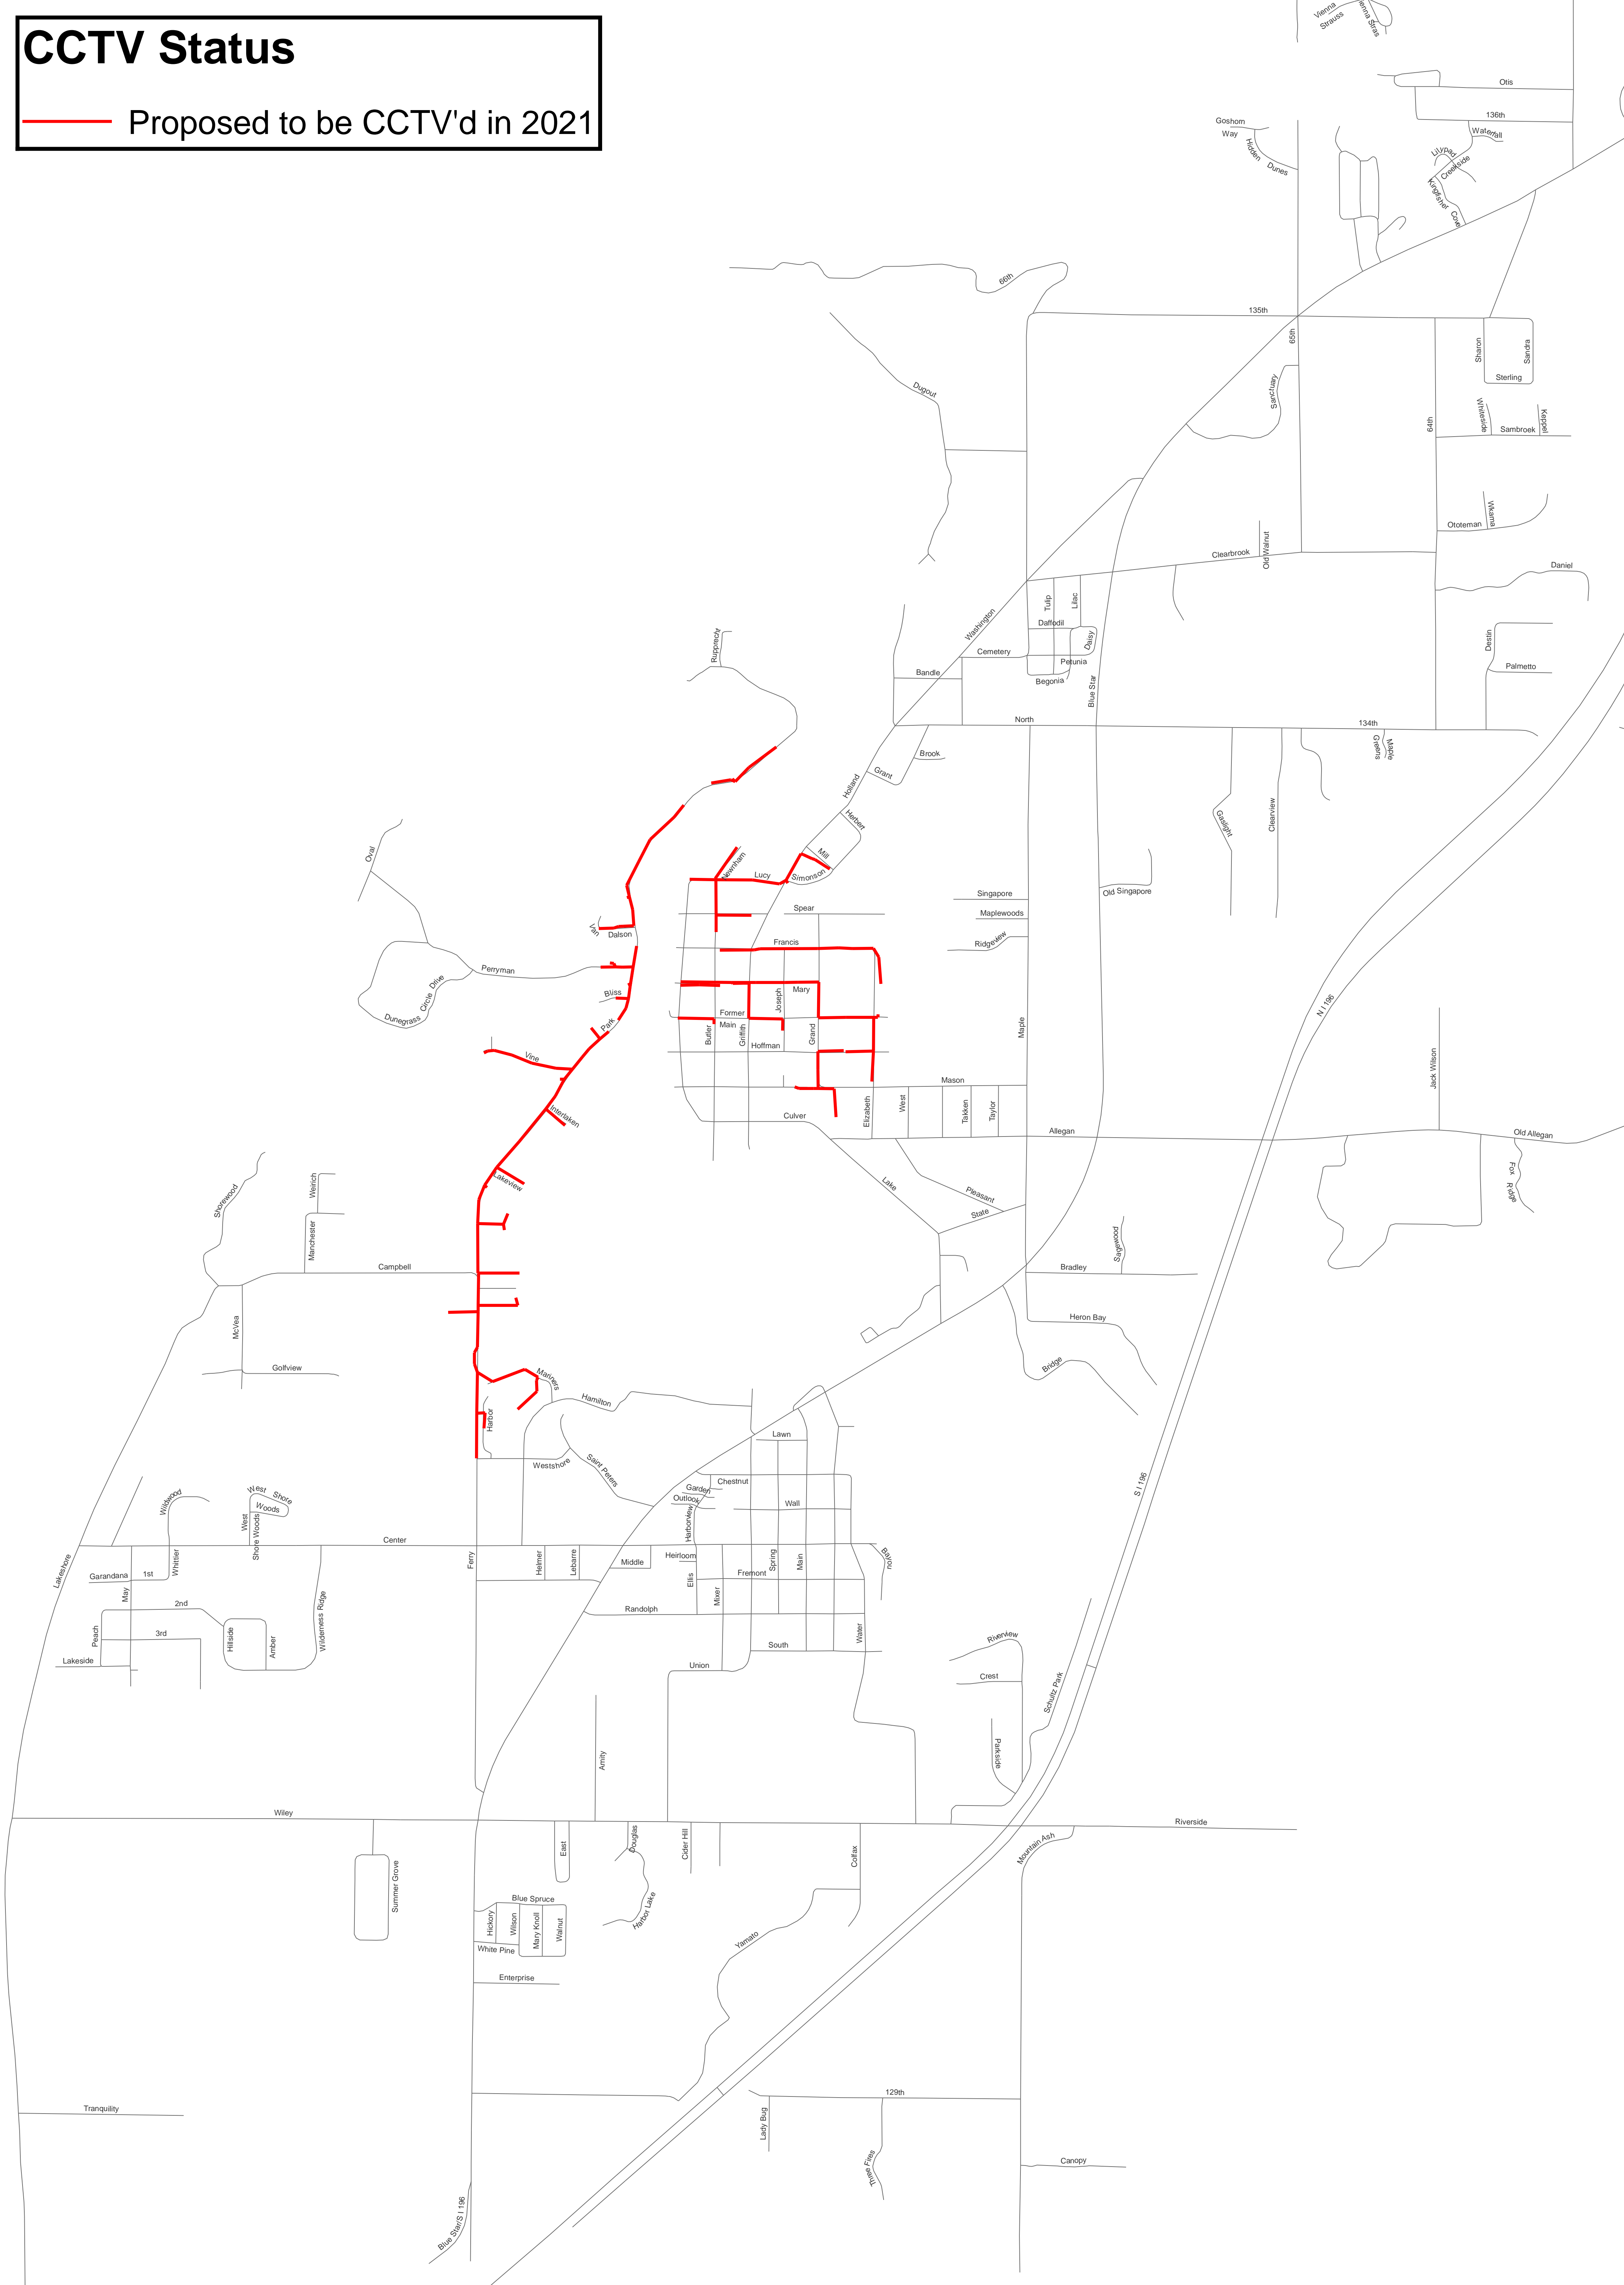

The KLSWA has contracted with Plumbers Environmental to perform sewer cleaning and televising of the public sewer system for the noted (Red) sewer mains on the attached file. Most of the cleaning and televising is in Saugatuck City this year with nominal activity in Douglas except near Mariner's Cove on Ferry St. This activity is occurring for the remainder of this week and next week, currently.

This activity may create gurgling sounds from sewer lines or toilets which may surprise some residents. Residents may wish to keep their toilet seats closed.

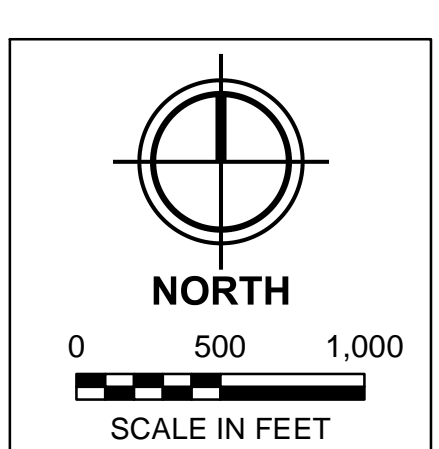

Please contact the KLSWA with any questions. 269-857-2709

# CCTV Status

— Proposed to be CCTV'd in 2021
